About Danen:

Founded in November 2007, Danen is a professional producer of multi-crystalline solar wafers, and provides customized manufacturing services. The solar wafers offered by Danen are widely adopted by global solar cell manufacturers, thanks to its leading technology that realizes excellent quality and high-efficiency photovoltaic conversion rates for solar cells. Danen also invests extensively in the research of critical materials, state-of-the-art production processes and dedicated equipments that help Danen deliver the highest quality wafer with the most competitive cost. Danen continues its expansion of capacity in Taoyuan, Taiwan, with a total capacity up to 520 MW by the end of the year.
